SESSION 654 - Current and Emerging Applications of Cardiac CT: Joint Symposium of the Society of Cardiovascular Computed Tomography and the American College of Cardiology

[Add to My Itinerary](#)[📅](#) March 5, 2023, 8:00 AM - 9:15 AM[📍](#) Room 229**DESCRIPTION**

This session will cover a broad range of topics germane to the current and emerging clinical uses of cardiac CT in clinical cardiology practice. The range of uses will extend from preventive care (with a focus on the role of calcium scoring) to advanced valvular heart disease imaging, as well as an update on plaque imaging and its role in modern coronary CTA. We will end the session with a look at the near/emerging future of CT with an update on photon counting scanners and their expected influence on cardiac CT.
